<p>1) SAC Meeting report</p> <p>T Yasaka briefed the Committee on the main outcomes.</p> <p>2) Plenary session for spin-in J Mankins will be the focal point to collect proposals by the Committee III members and observers on the plenary session of the 59th IAC in Glasgow (29 September - 3 October 2008). G Reibaldi proposes the topic of the "Moon Base" for this plenary</p> <p>3) Meeting in Paris - 26 March 2007 There is a need to have a longer Commission III meeting beside the Commission Meeting scheduled on March 26, 8:30-11:00, since there should be 3 studies to be presented in the Commission</p> <ul style="list-style-type: none">- 3.6 Strategies and Concepts: Valleriani/ Mankins study- 3.5 Earth threatening Asteroids- 3.4 Development of Infrastructure <p>P Swan provided a status of SG 3.8</p> <p>4) New study proposal J Mankins presented a new study proposal about Solar Power Satellite Systems. A study proposal form has been sent to all Commission members. The main objective is to propose a roadmap for a world-wide cooperation on this subject. The proposal was discussed and approved by the Commission III.</p> <p>T. Yasaka shall send a revised study form to SAC</p> <p>5) New format for Symposia A new format of IAC Symposia was proposed by T. Yasaka that SG of the Commission III could be the base to define the symposia and their sessions. The following discussions were made.</p> <p># Coordinators and Chairs are advised to invite the relevant authors to discuss the content/proposal/result of the Studies. Sessions could be organized in various ways in accordance with the status of the Study: Proposal, Development, Reporting. Panel discussion could be a way to initiate a proposal I, organized session with invited talks to reflect/deepen development of the study, and another to publicize the final report of the Study. Commission III members are invited to solicit prospective authors in line with the above</p> <p># In the future, while oral sessions could be mostly done in the above organized fashion, the general papers and those of independent subjects could be handled in interactive sessions.</p> <p>It has been agreed to dedicate a full day on 26 March 2008 to the Commission III</p>	<p>T. Yasaka</p> <p>G. Reibaldi</p>
