

IAA Study Group Status Report

Responsible Commission:

Study Number and Title: SG 3.26 Space Mineral Resources #2

Short Study Description (repeat from Study Group Proposal):

To provide the appropriate approach for teams in the public and private sectors to progress into space leveraging the extra-terrestrial resources available. The investigation will look across the technological, legal, and programmatic challenges. Emphasis will be upon the Outer Space Treaty recognition of national authority and the ability to utilize resources in space for public and private activities. The concept is that humanity must move beyond low Earth orbit in a timely manner leveraging the strengths of each nation.
