

IAA Study Group Status Report

Responsible Commission: III

Study Number and Title: 3.30 Space and its Utility in Forecasting Climate change

Short Study Description (repeat from Study Group Proposal): To determine the gaps in knowledge regarding forcing functions of climate change and ascertain the utility of space in gathering data to support competent research in the area.

Progress in past six months: None

Website Study Information update: (please give any update regarding Study Group Membership, documents, Study Plan and Schedule):

Issues requiring resolution? (recommend approach): Due to my inability to be in Paris in the Spring because of airport closure, the group has effectively disbanded. The secretary is no longer replying to emails, and essential persons do not seem to have the energy to focus on the study.

Product Deliveries on Schedule? (If modified explain rationale): I will recommend cancelling the study to the SAC in Washington DC.

Study Team Member Changes? (List any Study Team Members that you wish to discontinue, and provide names plus contact coordinates of any Members you wish to add on the second page of this Study Update form.) Note: Complete contact information including email, tel. and fax must be provided for all additions. Only Members with complete contact information will be listed and receive formal appointment letters from the IAA Secretariat.)

Name of person providing Study Group Status (Study Group Chair or Co-Chair):
