

Rules of the Road in Collision Avoidance Maneuvering

- Two maneuverable satellites are predicted to come close enough to each other to warrant a collision avoidance maneuver
- Who maneuvers?
- IAA study proposal in development to look at the Rules in the Road in Collision Avoidance Maneuvering
- Currently looking for participants in this study
 - You do not need to be a member of the IAA to join
 - For more information or to volunteer, contact:
 - Dr. David B. Spencer dbs9@psu.edu
